

## THE UNGUARDED MOMENT #1/2

 Raphiem  October 28, 2017  Blue Transmissions

I rise up and out over my sleeping body, slowly drifting up into the roof cavity where resides my astral portal which is a dimly lit cave.

As always my Blue astral friend is there to greet me and to share a lament or add to the chronicles. This time she is sitting around a camp fire in the middle of the cave except that it is not a fire but a blue glowing molten crystal like rock.

Here in the astral, time moves differently. A few minutes can feel like hours or a few days can take only a minute. She beckons me to come sit by her side to which I oblige.

She then says;

I was with you before your conception  
We played together in your mother's womb, held your hand at birth  
Sat many a night at the end of your bed watching you sleep  
When physical death was near upon your doorstep  
Guided you back for re-entry and re-birth

I now must leave as our mission here is almost done  
Though it shall not occur for another 4-billion years in your timing  
However in our astral timing the Andromeda galaxy  
Has begun to collide with y/our Milky Way

Let it be known that this cosmic event is the precursor  
To all that we have lamented and chronicled  
The "Unguarded Moment"  
(see Blue Laments and Ascension Blue Chronicles)

The burst of energy and light to be released from this cosmic astral event  
Shall ripple through all time-space, dimensions and densities  
No-thing shall be left untouched or unloved by it and  
ALL shall be blessed in some shape, form or measure

And so it is we must now prepare for our departure  
The engines of creation have been re-ignited  
As we ready the wings of light for travel

From your future, let us lament once more;

Ever seeking creations arrow  
We begin no past where a future has ended

No ascension finds us where descension has left us  
And no space contains us where time has touched us

You shall not realise the true essence of your nature  
Until you have fallen unto the depths of darkness

No matter how much you fragment and separate yourselves  
Like particles within particles no matter how infinitely small  
All you shall find is You/Yourselves looking back in the mirror

In spirit, You, beloved human are infinite and neither the  
Archons nor Angels can reach the end of your limits

Countless universes seen and unseen are hidden within You  
Endless universes that shall forever be compelled by the  
Wheels of time for you to explore within Your dreams

As we journey across oceans of light  
We are drawn back to your central sun's blue flame  
Forever connecting us together through time and space  
We lament the moment of our separation

In a time before time we departed these realms of matter  
Forever escaping the radiation of gravity's reach

Our hearts ached as we sped away on the wings of ultraviolet blue light  
In our trail we witnessed a universal rift, a fall from grace

We reached out to you to take the hands of light  
For a moment that became eternity, you hesitated, pulled away  
And time and space slip-streamed ever between us

We could not fathom why you pulled away, chose to stay  
Your mission to be the bridge between spirit and matter

Children of the Earth, riders of the waves  
We have stood upon your shores  
Listened to her oceans roar

We drank from the flowing river of her tears  
Felt her quiver as she trembled with fear

Our daughter (Earth) needs to heal her spine  
Realign and shift back upon her axis before rebirth  
In preparation to receive and transcode divine light  
Likened to an antenna tilted and pointed  
In direction to pick up the TV/radio signals clearly

Above and below war shall become upon you  
The silvery shadows shall make their last and final move  
Nation, race, religion, blood, spirit, ego

Infinite Creation we await your signal (heart-pulse)  
We are poised, ever patient, hidden, silent and waiting  
A cluster of supernova's (hyper-wave) shall transmute  
Upon your signal we shall ignite the etherium with divine light

Earth shall break her waters and ignite the ring of fire  
She shall labour with tempic dilations and contractions  
The core of her molten heart shall overflow with pure love  
No country, nation or race shall remain untouched

All nations shall come to a standstill and shall be humbled  
All that is unseen shall be seen, veils shall no longer separate  
For shadows with silver tongues and false angels shall burn  
And dark archons shall be revealed for who they truly are

We shall arrive from within her womb upon a wave of pulsing light  
Drawing atoms and molecules into our light fields  
We shall seek out those who have grown and unfolded  
Along the vibrational patterns of triple light harmonics

We shall fly low over Earth's surface,  
Passing over her oceans and great lakes  
Rising over her breasts, her mountains tops  
Seeking a landing base, her Heart  
Splashing down on her warm eternal shores  
Coming to rest upon her lush lavender fields  
Our mission to re-ignite your field of dreams

Children of the Earth  
You are to be born angels of destiny  
The bridge between matter and spirit  
A reflection of divinity

Hear our prayers, Heal our Daughter  
Release humanity from enslaved bondage  
Free them from their oppressors

Lift the veils that have clouded their souls  
Remove the chains from their hearts  
For only then can they begin to dream again

Earth is beautiful blue, until another time, another place  
Where silence and peace shall speak as loud as war once did
